DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: Lottery game with the option of tax insured tickets. Support for Species I can be found on page 8, lines 14-24 and page 9, lines 1-5. Claims 1, 2, 5, 6, 13 and 25 are restricted to Species I.

Species II: Lottery game with the option of payout insured tickets. Support for Species II can be found on page 7, lines 18-24 and page 8, lines 1-5 of the disclosure of the disclosure. Claims 11, 16-18 and 20 are restricted to Species II.

Species III: Lottery game with the option of combination (payout and tax) insurance. Support for Species III can be found in FIG 2. Claims 12, 14, 19 and 21-24 are restricted to Species III.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 3713

the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Due to the number of species presented in this restriction, a telephone attempt has not been made because it has been determined a written restriction more readily identifies the issue of restriction at hand.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. Marks whose telephone number is (703)-305-7497. The examiner can normally be reached on Monday - Thursday (7:30AM - 5:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teresa J Walberg can be reached on (703)-308-1327. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703)-308-1148.
